

Santa/Birthday Sacks for Foster & At-Risk Children

Santa/Birthday Sacks can be any material – holiday or birthday colors & patterns are preferred, but not required. Children love all kinds of colors and patterns! We understand that material can be expensive, so feel free to be creative – sheet sets and tablecloths come in all kinds of patterns!

- Bags can be anywhere from 24x36 to 36x36
- 2 yards of 36" material will easily make the 36x36 bag. For the smaller bag you can use a 45" material without a lot of scrap.
- If the material has a definite direction on the pattern, then cut so that there is a seam at the bottom so the pattern runs the right way both front and back.
- Fold top and bottom raw edges over around 3/8"
- Fold over again and stitch down so there is an open-ended casing. (If you would prefer, you can make a casing for the cord with bias tape, or any other idea that works for you)
- Fold material right sides together with the casings together
- Stitch up either side up to, BUT NOT OVER the casing.
- Double stitch at the top so the casing won't come apart
- Slide a cord through each side of the casing – like a garbage bag, and pull the bag closed

NOTE: If you come up with a better method, please feel free to use it! The bags just need to have a pull-string-type closure. You can also make larger bags, but please make them vertical and not horizontal so the pull-string can close.

Please deliver to:

Joshua House
1515 Michelin Court
Lutz, FL 33549

Call (813) 406-5694 with questions.

Thank you!
